

## Notes and Comments

### A Selective Bibliography of B.V. Simon's Publications

*A Survey of Medical Library Facilities in London for Post-Graduate Students and Research Workers Including a Suggested Scheme for the Re-organization of the Library of Royal College of Surgeons.* Montreal: McGill University Library School, 1938.

"Planning a Company Library." *Business Quarterly*, v. 16, no. 1 (Spring 1946): 39-46.

"Let's Consider Serials Realistically." *Library Journal*, v. 71, no. 17 (October 1, 1946): 1296-1301.

"The Training of Medical, Hospital and Nursing Librarians." *Special Libraries*, v. 39, no. 3 (March 1948): 71-76.

"Cataloguing of Periodicals." *Ontario Library Review*, v. 33, no. 3 (August 1949): 237-45.

*Library Support of Medical Education and Research in Canada: Report of a Survey of the Medical College Libraries of Canada, Together with Suggestions for Improving and Extending Medical Library Service at Local, Regional and National Levels.* Ottawa: Canadian Association for Medical Colleges, 1964.

*Les besoins de la bibliothèque médicale pour l'enseignement et la recherche.* Québec: Université Laval, 1964.

"The Need for Administrative Know-how in Libraries." *Bulletin of the Medical Library Association*, v. 57, no. 2 (April 1969): 160-170.

## Notes

1. The assistance of the following people in writing this appreciation is gratefully acknowledged: Ms. Fay Lando-Little, Toronto, Ontario; Mrs. M.A. Flower, Kingston, Ontario; Mrs. Nellie Reiss, Mrs. Elizabeth Silvester, and Dr. Stanley Frost, McGill University.

2. "SLA professional award/1969," *Special Libraries*, v. 60, no. 6 (July-August, 1969): 406.

## The Rutherford Museum

By Montague Cohen  
*Professor, Department of Physics*

The Rutherford Museum of McGill University contains a collection of about 35 pieces of original research apparatus designed and used by Ernest Rutherford during his tenure as Macdonald Professor of Experimental Physics from 1898 to 1907. In addition, there are documents, letters, photographs and other memorabilia. Until recently the museum was housed in a room in the old Macdonald Physics Building where Rutherford actually worked, although this building was converted into a library (Physical Sciences and Engineering) in 1977. In 1993 it was decided to move the museum to the new Physics Building, appropriately named the Rutherford Physics Building, on the upper campus. The museum was officially re-opened on October 1, 1993 by the University Chancellor, Gretta Chambers, and a public lecture on "Rutherford at McGill: Life and Science" was given by the Museum Curator, Professor Montague Cohen.

### *Notes and Comments*

Although the move entailed a break with the original Physics Building, the new location provides about 50 percent more space for the museum and this has been utilized to display photographs, documents and other items to advantage. Unfortunately, there are no additional pieces of original apparatus! The new museum is next to the McPherson Museum of Scientific Instruments (mainly late 19th century) and visitors can see both collections if they wish. Although neither museum has regular hours of opening, visits can be arranged by appointment at short notice. Visitors to Montreal should at least be aware that the city includes this unique treasure!
